- Spring System MLS**  
(Multi Layer Spring Unit): 2,314 springs on a 160x200 mattress  
It consists of **4 layers of springs:**
  - Stretch pocket springs
  - Stretch pocket springs
  - X-pocket springs
  - Stretch pocket springs
- Foam Belts

**Unique luxury sensation with integrated topper 1 2 3 4**

The multiple layers of foamy flexible materials fit the curves of your body perfectly, offering unrivalled comfort, while they allow the body to breathe, ensuring a healthy sleep. They fit and support the spinal cord in a unique way.

**Innovative spring system MLS 1**

It's designed to offer top orthopedic support and to abolish the reverse negative pressure towards the body. The five different zones support ideally the body on the heaviest areas (shoulders and hips). Top levels of orthopedic standards are met thanks to the specially designed stretch pocket springs that back down towards all directions, offering the perfect fitting to the body.

**Peripheral support for extra durability 1**

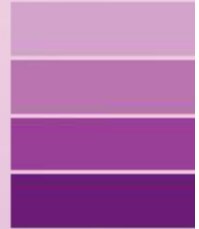

The mattress maintains its original shape and form.

## Naturally adjusts to your dreams

Elasticity and natural return block movement transfer providing you with a healthy and relaxed sleep. A flexible mattress that embraces your body curves.

### Natural embrace

Hypoallergenic Latex is a natural material in liquid form extracted from the "Hevea Braziliensis" tree

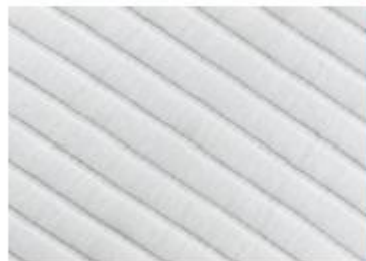

### Absolute hygiene

Antibacterial fabric for maximum protection against allergies and infections

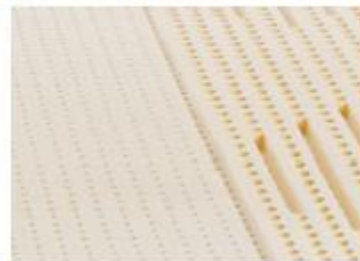

### Vanilla aromatherapy

A mild and enjoyable treatment with aromas and essential oils, for tranquility, beauty and well-being

**ECOLOGICAL  
KNITTED  
FABRIC**  
antibacterial &  
aromatherapy

**NATURAL  
LATEX [85%]**  
with 5 support  
zones

Indulge yourselves with **matchless anatomic support** due to the 85% natural Latex core and the ergonomic and elastic honeycombed surface. Enjoy a healthy and restful sleep with minimum body pressure. Latex, being a hypoallergenic material, prevents the growth of microbes and acaria on its surface. The 5 zones of varied density allow the mattress to support ideally the heavy body parts.

Enjoy a unique **sense of freshness**. Feel the benefits of the sweet and warm Vanilla aroma with its relaxing, anti-stress and resting effects. Fight insomnia and relax in the bedroom.

PURE MEMORY  
NATURALLIS

<http://www.mediastrom.gr/en/mattresses/flexy/product/153/PUREMEMORYNATURALLIS/>

## Innovative design for a unique sensation

A mattress that will give you the snuggling and hygiene sensation you seek. Its sophisticated foam materials imprint your body and "remember" your preferences!

### Embrace & comfort

Pioneer material memory naturallis responds to body temperature

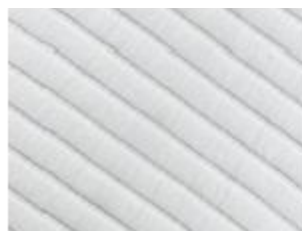

### Unique hygiene

Antibacterial fabric processed with Aloe Vera aromatherapy for protection against allergies and infections

### Safety and durability

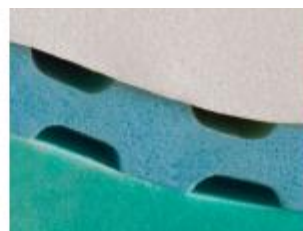

Materials are processed with water and essential oils for cohesion and to prolong their life expectancy

**ECOLOGICAL KNITTED FABRIC**  
antibacterial & aromatherapy

**MEMORY NATURALLIS**  
with multiple support zones

**AQUA FOAM**  
with multiple support zones

**BIOGREEN FOAM**  
with multiple support zones

Memory naturallis adjusts to your body temperature and imprints all your natural curves, providing you with an impeccable **anatomic feeling**.

**Excellent hygiene** thanks to Aqua Foam and its air-ducts that provide the mattress with the proper ventilation. Fine elasticity, return and embrace of your body curves are among its many qualities.

**Orthopedic support** due to the multiple zoned robust foam material Biogreen Foam which provides your spinal cord with proper support and the core of the mattress with better ventilation.

- Bonnell Springs  
[339 springs in a mattress 160x200]
- Foam Belts

### Durability and appearance **★★★★★**

Plush upholstery layers offer elasticity and adequate return.

### Durability and comfort **★★**

White felt Feltron works harmoniously together with the springs, offering durability and orthopedic support while the cotton pad ensures hygiene and humidity control which are essential for the mattress core.

### Bonnell springs offer orthopedic support and durability **★**

Their resistance increases with load therefore they offer proper support to the spinal cord.

### Peripheral support for extra durability **★**

The mattress maintains its original shape and form.
